

NATURAL FIBER INSULATED SHIPPER

Reinventing Cold Chain Packaging

SUPERIOR INSULATION

RECYCLABLE + REUSABLE

BIOEGRADABLE + COMPOSTABLE

SHIPS FLAT, SAVES SPACE

ABSORBS CONDENSATION + LEAKS

EXCEPTIONAL CUSHIONING

LOWERS SHIPPING COST

EASY, 2PC ASSEMBLY SAVES TIME

USE WITH GEL PACKS OR DRY ICE

NATIONWIDE MANUFACTURING

KODIAKOTTON® delivers a reliable temperaturesensitive product packaging solution. The biodegradable and compostable insulation layer is manufactured of post-industrial natural fiber, primarily cotton. Two-piece insulated box liners are available wrapped in a durable white poly film. The film is impregnated with additives and perforated to encourage bio-disintegration at rates dependent on the waste disposal site. Perforations provide the additional benefit of moisture-absorbency to minimize any adverse effects associated with condensation and product leakage.

KODIAKOTTON® is a fresh packaging alternative to traditional foam with dual benefits of reliable maintaining the temperature necessary to preserve product quality while providing an environmentally responsible disposal option. Performance is against the shocks and drops of the distribution channel. Insulated liners and matching boxes are delivered flat to conserve space and reduce cost. Shippers may also be delivered assembled, ready-to-pack. Stock sizes available (see back page).

SHIP RESPONSIBLY

~1" STOCK LINER SIZES (INSIDE LINER)

9" x 9" x 9"	
10" x 10" x 10"	
11" x 11" x 11"	
13" x 13" x 13"	
16" x 16" x 16"	

Easy to assemble, 2 piece box liner design can be shipped flat to save storage space and lower shipping cost.

~1.5" STOCK LINER SIZES (INSIDE LINER)

	,
7" x 7" x 7"	
8" x 8" x 8"	
9" x 9" x 5"	
9" x 9" x 9"	
10" x 8" x 6"	
10" x 8" x 9"	
12" x 10" x 7"	
12" x 10" x 9"	
12" x 12" x 12"	
17" x 12" x 10"	

Available with matching boxes and assembled, ready to pack and ship.

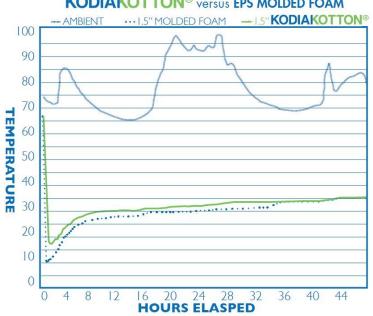

Don't see the size you need? No problem, we will manufacture to fit your boxes!

KODIAKOTTON® versus EPS MOLDED FOAM

The above "direct comparison" test results were recorded by individual data loggers with similar placement within each of the test packages as well as the same proximity to the external heat source. Although from an actual case study simulating a peak heat summer shipment, individual results may vary. KODIAKOOLER does not warrant or guarantee that these results will be the same for any product and/or shipment. KODIAKOOLER will gladly provide samples for independent testing and evaluation.

KODIAKOOLER.COM/RECYCLE Natural Fiber Pads are biodegradable and compostable as tested using ASTM test standards.
